RESTORED

A Counseling program tailored to help those in need of healing from sexual addictions.

Sarah Fesser, MS, LPC
Camron Hinckle, MS, LPC

OUR MISSION

With the Restoration Program, it is our goal to help individuals and couples work through the pain inflicted through sexual addictions towards the ultimate goal of individual and relational healing.

GROUP COUNSELING

Group counseling will allow healing through shared journeys in a judgement free atmosphere of support and accountability with others. Groups are planned for nine consecutive weeks designed with the men working through Every Man's Battle, and the women working through Every Heart Restored. Books and workbooks will be provided during the initial joint session (week 1). Starting dates offered in January, April, and September.

INDIVIDUAL COUNSELING

Along with group counseling, we believe it is vital to the healing process that each person participating in the Restoration Program attend individual counseling.

Through this, Sarah and Camron can work with each individual on their own personal struggles in a way that may not be covered in group work. This will allow each individual to progress towards their own personal goals.

*Individual counseling is possible if one doesn't feel ready or is unable to engage in a group setting.
